

## LT02-725U

### Real Air Cooling

The multi-duct vortex refrigeration system and finned evaporator can prevent frosting completely and improve temperature uniformity to a large extent.

#### Real Energy Saving

The refrigerator is equipped with "M + Energy Core" power management system and complete air cooling design, improving energy saving efficiency by more than 40%.

#### YY Real Visibility

The electrical heating + LOW-E design with double considerations can achieve a better anti-condensation effect for the glass door.

#### Real Safety

Seven temperature probes can ensure high precision of temperature control with nearly **no** fluctuation and thus can improve safety.

#### **Data Storage**

• Equipped with a USB export interface, which can be used for storing data from the last month and the current month automatically in PDF format. • When a U-disk is connected, temperature data can be stored continuously and automatically

(data can be stored for more than 10 years);
•The printer is optional.

#### Human-oriented

- Equipped with high-quality shelves made from PVC-coated steel wire with tag cards and classification marks, which are easy to clean;
- · Equipped with an invisible door handle, ensuring elegance of appearance;
- Equipped with a testing port, bringing convenience to users in testing temperature inside the cabinet;
- · Inside with lighting system for easy look. The light will turn on while door is opened, light will goes off while the door is closed.

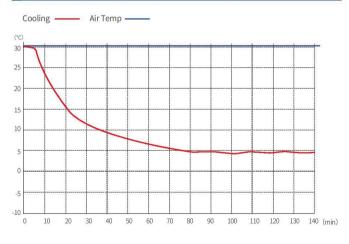

Equipped with a compressor supplied by an international famous brand, high-efficiency air-cooled condenser and finned evaporator, ensuring fast refrigeration.

**Refrigeration System** 

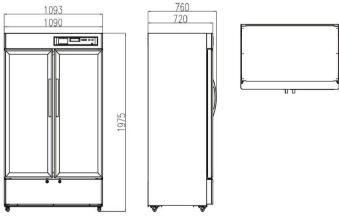

## Scope of Application

Suitable for storage of biological products, vaccines, drugs, reagents, etc. Suitable for use in pharmacies, pharmaceutical factories, hospitals, centers for disease prevention & control, clinics, etc.
